**CHECK ONE:**

- Renewal of current authorization with **NO** changes.
- Renewal **WITH** changes – completed [RS Form 100](#) Attached

**PLEASE READ BEFORE SIGNING**

The applicant agrees to abide by all applicable regulations regarding the use of radionuclides as set forth by the State of Wisconsin DHFS, the NRC, and the campus Radiation Safety Program. These regulations include, but are not limited to, the following:

1. The authorized user has the responsibility to insure that all personnel who work with or in the vicinity of radionuclides under this authorization (including animal caretakers and students) are trained in accordance with the requirements of the UWM NRC license.
2. All personnel must wear dosimeters when required and those using specified quantities of tritium or radioiodine must have bioassay monitoring as applicable. Pregnant workers will be apprised of the "Pregnancy Surveillance Program".
3. All rooms containing radionuclides must be locked when unattended. All rooms containing radionuclides must be posted and surveyed as required by WI DHFS regulations. Records of radionuclide receipt, use and disposal must be kept as specified, and radioactive wastes must be handled as specified by WI DHFS regulations.
