

APPLICATION FOR GRADUATE STUDY IN PSYCHOLOGY

Terminal Master's Programs in Experimental Psychology
Specializations: Behavior Analysis or Health Psychology

Deadline: December 31, 2007

Complete this application if you intend to earn only the master's degree here. Please note that due to budgetary limitations, the department **does not** offer teaching assistantships or other forms of support to students in the terminal master's programs.

Return this form to: Department of Psychology
Attention: Admissions
University of Wisconsin-Milwaukee
P.O. Box 413
Milwaukee, Wisconsin 53201-0413

Name	SSN
Phone#	Email address
Permanent home address	
Mailing address (if different)	

1. List below the schools where you have studied as an undergraduate or graduate student starting with the most recent one.

Name of School	Dates Attended	Degree Received	Major	Date of Degree

2. Three letters of recommendation **ARE REQUIRED**. List the names of the individuals who will write these letters. Letters must be sealed in the provided envelope and given back to you. You must include the sealed letters with your completed application.

Name of Reference	Position	Address

3. List your Graduate Record Examination (GRE) Scores. A copy of your GRE scores is **REQUIRED** by the department and **MUST BE RECEIVED BY THE DEPARTMENT BY DECEMBER 31st**.

Date taken or plan to take GRE

Verbal	Quantitative	Writing (or Analytical)	*Advanced Psychology

*The advanced (Psychology) test is only required of applicants who have completed an undergraduate major in psychology.

4. Indicate below whether you are applying to the health psychology or behavior analysis specialization.

HEALTH PSYCHOLOGY **BEHAVIOR ANALYSIS**

5. Compute as accurately as possible your grade-point average (GPA) for the categories below. If necessary, convert to the four-point scale detailed below. **YOU MUST COMPLETE THIS SECTION AS WELL AS SUBMIT TRANSCRIPT(S) FROM EACH SCHOOL ATTENDED.**

First, we would like you to calculate your GPA for the last two years, or about 60 credits, of your bachelor's degree by completing the table below. (You can find the relevant information on your transcripts.)

Table for Computing GPA for Last 60 Credits

Year/Semester	Credits	GPA	Credits x GPA
	Sum =		Sum =

For example, if during the Spring 2006 semester you earned 15 credits with a 3.50 GPA, then your entry for a row above would be:

2006/Spring	15	3.50	52.50*
-------------	----	------	--------

*15 x 3.50 = 52.50

To compute your GPA for about the last 60 credits: Sum the credits in the **Credits** column, enter the result in the table, and sum the products in the **Credits x GPA** column, and enter the sum in the table. Your GPA for the last two years is the sum of the products divided by the sum of the credits: _____ (please complete).

Second, we would like you to use the table below to calculate your GPA for your undergraduate psychology major. (If you did not major in psychology then complete the table below, but do not compute the GPA.)

Table of Undergraduate Psychology Courses

Course Title	Year	Semester	Credits	Grade	Grade Points	Credits x Grade Points
			Sum =			Sum=

For example, if you completed introductory psychology during the Spring 2003 semester and earned 3 credits of A- then your entry for a row above would look as follows:

Intro. Psych.	2003	Spring	3	A-	3.67	11.01
---------------	------	--------	---	----	------	-------

Please use the following tables to convert your grades to a four-point scale:

A	A-	A/B	B+	B	B-	B/C	C+
4.00	3.67	3.50	3.33	3.00	2.67	2.50	2.33

C	C-	C/D	D+	D	D-	D/F	F+	F
2.00	1.67	1.50	1.33	1.00	.67	.50	.33	0

To compute your GPA for your undergraduate major in psychology: Sum the credits in the **Credits** column above, enter the result in the table and sum the products in the **Credits x Grade Points** column above and enter the sum in the table. Your GPA for your undergraduate psychology major is the sum of the products divided by the sum of the credits: _____ (please fill in).

6. For the following tables, please list your coursework.

Graduate Coursework

Course title	Year taken	Letter Grade	Course title	Year Taken	Letter grade

Social Sciences

Course title	Year taken	Letter Grade	Course title	Year Taken	Letter grade

10. Preference for Major Professor

Please select only four faculty members, ranking them from 1 to 4, in order of preference for your major professor (1 = person with whom you would most like to work). This decision is very important because your major professor usually serves as your research adviser throughout your time in the program. Please carefully consult the faculty profiles on pp. 16-35 of the graduate admissions brochure before making your decisions.

Applicants for the **Behavior Analysis Specialization** should indicate their preference for major professor below:

Name	Your Ranking	Name	Your Ranking
Dermer		Swain	
Kanter		Woods	
Klein-Tasman		Other:	
Moore			

Applicants for the **Health Psychology Specialization** should indicate their preference for major professor below:

Name	Your Ranking	Name	Your Ranking
Davies		Passman	
Fleming		Reddy	
Klein-Tasman		Swain	
Merritt		Other:	
Mosack			

NOTE: LIMIT OF FOUR CHOICES ONLY

If you are offered admission, you will be assigned a major professor. We will try to honor your preferences, but we cannot guarantee that you will be assigned the major professor for whom you have expressed a primary interest. Applicants who are offered admission will be advised concerning their assigned major professor before they decide on accepting the department's admission offer. The likelihood of a faculty member agreeing to serve as a major professor depends, for example, on a student's academic record, compatibility of interests, and the number of students the faculty member currently advises.

PLEASE NOTE APPLICATION DEADLINE OF DECEMBER 31, 2007

and note that a separate application to the Graduate School is also required:
