#### COURSE OBJECTIVES

1. To become familiar with the major provisions of U.S. and state environmental law with which planners are most likely to come in contact.
2. To explore the economic and social effects of both environmental problems and the legal solutions that have been created to deal with them.
4. To examine the implementation of environmental law and alternative policies for controlling threats to the environment.

#### COURSE READINGS

Books for you to special order. A web address or phone number are provided.

Paul G. Kent and Tamara A. Dudiak, Wisconsin Water Law, Second Edition. Madison, WI: University of Wisconsin Extension, Cooperative Extension, and UW-Stevens Point, 2001. Call 608-262-3346 to order a copy from UW-Extension.

Arthur J. Harrington and Diane M Marchuk, A Wisconsin Brownfields Primer. Madison, WI: University of Wisconsin - Madison Law School, 1998. Call 608-262-3833 to order from the UW Law School.

Other readings not in the text are available on-line or on e-reserve. See course outline below.
