

## UWM Curricular Area Approval Form

This form is to be used for modification of curricular codes - the three-digit prefixes to UWM course numbers. Each requested modification - new, changed, or terminated curricular area code - is to originate with departmental or committee action and be routed to the appropriate dean. The dean, in turn, requests approval from the Academic Program and Curricular Committee. Approved modifications will be filed by this committee with the Secretary of the University and appropriate deans and the Vice Chancellor's Office.

**For new codes, description of curricular area and relationship to academic programs:** Interdisciplinary code to house Gaelic language studies, core courses for the Celtic Studies certificate program, and courses that deal with various aspects of Celtic culture that do not fit neatly into an existing department or program.

**Reason for change:** Courses exclusive to Celtic Studies have been offered under the Ethnic Studies and Linguistics curricular areas. Interest in Celtic Studies has grown considerably over the past five years, but both current and prospective students have difficulty finding Celtic courses in the Timetable because there is no central location for them.

**Other departments and curricular areas that may be affected:**
